## Attachment A

### Description of EU-ETS CO<sub>2</sub> Emissions Reporting Portal Service

Universal Weather and Aviation, Inc. will offer aviation CO<sub>2</sub> emissions reporting services via an online Emissions Reporting Portal to facilitate compliance with EU-ETS submission requirements. This portal resides on Universal's Registered Users website, with access limited to annual subscribers.

#### Your subscription to the Portal will enable you to:

- **Easily access your historical flight planning data** stored in Universal's in-house and online databases for trips between EU member states (via your private portal interface)
- **Upload your own flight planning data** to the portal with only a few clicks
- **Run customizable emissions reports** on-demand, based on your unique reporting criteria
- **Leverage cost savings** by bundling report access and verification expenses, saving you out-of-pocket expenses for separate reporting and verification solutions

#### Service description

- **Monitoring and reporting:** data monitoring via online Emissions Reporting Portal
- **Consultation:** EU-ETS regulatory consultation included as part of your subscription

## Attachment B

### Description of EU-ETS Authorized Representative Service

For operators who want to alleviate the administrative burden associated with staying compliant with EU-ETS regulations, Universal Weather and Aviation, Inc. has partnered with Aviation Emissions Solutions Limited (AES), a UK-based EU-ETS consulting firm, to offer you a complete EU-ETS solution.

#### Enrollment in this service offers you:

- Establishment of your Aircraft Operator's Holding Account (AOHA) with the correct member state
- Annual management of your operation's AOHA
- Establishment of a carbon trading account and ongoing management of carbon procurement and trading on your behalf, if requested  
*(If Universal submits payment for carbon credits on your behalf, an additional administrative fee will be applied)*

#### Service description

- This is an optional service offered by Universal Weather and Aviation, Inc. If you choose not to opt in for this service, you will be responsible for managing your operation's AOHA and carbon procurement.

## **Attachment C**

### **Description of EU-ETS do-it-yourself carbon trading**

For operators who want to be hands-on and manage their own carbon trading, Universal Weather and Aviation, Inc. has identified CFP Energy, Ltd. (CF Partners) as a carbon trading firm that offers you an online trading platform, giving you direct access to the carbon market.

### **Service description**

- This service is provided by CF Partners and is recommended by Universal for operators who want to manage their own carbon trading. Universal will assist you in completing the paperwork required to get started with CF Partners. There is no charge from Universal for this service, and you will be billed directly by CF Partners. If Universal submits payment for this service, there will be an additional administrative fee applied.
