

UNIVERSAL APPROVED AS QICP

Universal Weather and Aviation, Inc. has been approved as a Qualified Internet Communications Provider (QICP) by the Federal Aviation Administration (FAA). Part 121 and Part 135 operators may now list Universal as their approved QICP for online weather information. According to the company, not many companies have been approved as a QICP. Universal met both the FAA's standard of no more than 30 minutes of total outages in a three month period and overall accessibility standard. Universal is also capable of initiating transmission of the data
