General/Passenger Information

Delhi, the capital of India, is the third largest city in India, surpassed in population only by Calcutta and Mumbai. It is an amalgam of the old and the new. Ancient and modern times conflict with each other, not only in the remains of a succession of empires, but equally in present social structure and lifestyles. The name Delhi, Dehali, or Dilli is derived from Dhillika, the name of the first medieval township of Delhi, located on the southwestern border of the present Delhi, in Mehrauli.

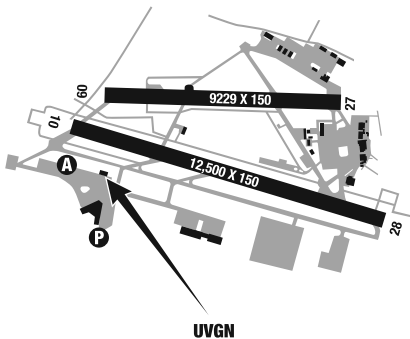

Shop Connaught Place – built in 1931, this center serves as the prime state emporium. Visit the National Gallery of Modern Art – once the palace of the Maharaja of Jaipur, this building hosts approximately 4,000 paintings, graphics and sculptures. Follow a traditional Indian meal with an after-dinner paan or betel leaf, which holds an assortment of digestive spices like aniseed, cloves, arecanut and cardamom.
