Subject: CORSIA: updated list of accredited verifiers & forecasting tool

To: airline CORSIA focal points & participants in IATA CORSIA workshops – Please let us know if you no longer wish to receive updates from IATA on CORSIA.

Dear all,

We would like to inform you that ICAO has published an updated and revised list of verification bodies accredited for CORSIA. The list can be downloaded from the ICAO website: [link to pdf](#).

In attachment, you will find an updated version of our excel tool to forecast offsetting requirements. The excel spreadsheet is aimed at helping airlines get an order of magnitude estimate of their future offsetting requirements. The main updates in this version are: possibility to model future CO2 emissions based on ICAO long-term forecast and revised modelled sectoral growth factor. Instructions are provided in the spreadsheet, but if you have any questions on how to use the tool or on the results or if you note any errors in the spreadsheet, please let us know.

Kind regards,

Michel
